## Dissertation (B.Tech & M.Tech)

**Title** Understanding of mutual interactions between liquid jets: Entrainment and sheet formation

**Supervisor** **Prof. Arup Kumar Das**

I have worked on two major problems: Formation of liquid chain by collision of liquid jets & Air entrainment by plunging liquid jet. These interactions are investigated using detailed numerical simulations and in-house experiments. Full text is available at: <https://goo.gl/kws3Nf>
